Jauer Dependable Genetics

Semen Sales Directory

The scope of our program at Jauer Dependable Genetics is the production of maternally efficient Angus cows. In fact, producing efficient, real world cattle has been the goal of our breeding program for the past 39 years. Breeding cattle that thrive in least cost forage environments has been paramount in our selection process to achieve maximum efficiency. To achieve this end, we have extensively line bred our cattle to genetically concentrate those traits that will result in fewer surprises in type and performance. The result to our cow herd is increased uniformity and predictability. We have demanded our cattle be moderately sized and that they have added muscling and fleshing abilities. We also require that they have great udder quality, and are structurally sound. It is easy to see the advantages our cattle possess especially when they are asked to work in grass and forage environments. The carcasses from our cattle have excellent muscle expression and strong retail product, yet aren't overly fat. We plan on staying on our disciplined, planned breeding program with a goal of maximizing profitability in our cow herd for years to come.

Another Jauer produced - low input, grass type bull, Jauer 1020 Honesty 3042 7134 sold in our 2009 sale for \$3,200. The Jauer 1020 bull does it with style.

• Line breeding OCC Emblazon back on OCC Anchor daughters produces a genetic package that yields powerful cattle. The Jauer Emblazon 78 203 bull's progeny are as consistent as you'll find. They have tremendous depth and rib with a great profile. He's a large scrotal bull and he produces magnificent replacement daughters.

• Jauer Honesty 726 1020 is the most consistent low birth weight bull we have ever raised. His calves are vigorous at birth and extremely consistent. We hope to duplicate his dam's great udder development and her ability to thrive in grass environments into maternally strong heifer replacements. The daughters of Jauer 1020 look just like his dam - the Jauer Exodus 726 544 cow.

Jauer Exodus 726 544 - Dam of 1020

C
